

## Axle Identification

In the unlikely event that you should require service assistance from Dexter Axle, please have the lot number of the axle available when you call.

On all axles produced after April 2001, this nine digit number can be found on the rear side of the axle beam approximately 18" from the curb side of the vehicle. Look for the words DEXTER AXLE and the lot number will be located directly under the name.

Recreational Vehicle axles that have been certified for use in Canada will also bear the letters CSA.
