

2642 Hackberry Drive * Goshen, IN 46257 * (574) 535-2100 * www.keystonerv.com

There are selected products arriving to you with the *Keyed-Alike* system installed. This system will provide your customer with a single key to operate all entry, bunk, and storage compartments doors.

The *Keyed-Alike* program has several benefits for dealers and customers.

- **Simple, one key fits all**
- **Easily reorder spare keys with simple key number**
- **Added security by upgrading the CH751 keys to a unique cut key**
- **Easy to replace if lock is broken or damaged**
- **Reduced warranty claims**

Enclosed AP Products has provided instruction sheets that demonstrate the operation of each of the provided keys.

In this dealer starter packet you will find **(2)** different keys to assist you with the program:

- **Red Dealer Master Key** – Operates all Bauer RV paddle cylinders marked with “P”. This is not a new key. This is the current red dealer master for the Bauer brand of locks.
- **Blue Control Key** – For installation and removal of all Bauer RV paddle and dead bolt lock cylinders.

For additional **Red Master Keys or Blue Master Keys** please contact AP Products (Bauer) at 517-278-8521.

Please note that there will be a charge to your dealership for the Blue keys!

If you have any questions regarding the *Keyed-Alike* program, please feel free to contact AP Products Customer Service at 517.278-8521.
